RE: Request for Information Regarding the Standard Products Site,
Wichita, Kansas

Dear Mr. Phillips:

This letter seeks your cooperation in providing information and documents relating to the contamination at the Standard Products Site, formerly located at 650 East Gilberts in Wichita, Kansas (the "Site"). We are sending this Information Request because you are the current owner of the Site. We encourage you to give this matter your immediate attention and that you provide a complete and truthful response to this Information Request and attached questions (Enclosure B) within thirty (30) days of your receipt of this letter.

The United States Environmental Protection Agency ("EPA") is investigating the release or threat of release of hazardous substances, pollutants, or contaminants at the Site. EPA is seeking to obtain information concerning the generation, storage, treatment, transportation, and disposal methods of such substances that have been or threaten to be released from the Site. EPA is attempting to determine what types of activities may have lead to contamination at the Site. EPA believes that Four P Equipment, Inc. (Four P), might have information which may assist EPA in its investigation of the Site because EPA has identified Four P as a current owner of the Site.

The Site is located at 650 East Gilbert Street, Wichita, Kansas. Standard Products operated a radium dial ship at the Site in the 1950's until approximately 1963 conducting aircraft dial stripping operations. During this process, paint containing radium was stripped from the dials with solvent prior to the dials being repaired. In August, September, and December 2007, the Kansas Department of Health and Environment (KDHE) conducted sampling at the Site. Samples were analyzed for Radium-226.

Elevated Radium-226 concentrations exceeding the standard established at 40 C.F.R. § 192.12 of a cleanup level not to exceed background plus 5 pCi/g. Levels of Radium-226 as high as 81,800 pCi/g of radium-226 were found at the Site.

Description of Legal Authority

The federal "Superfund" law (the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. Section 9601, et seq. commonly referred to as "CERCLA" and "Superfund") grants EPA the authority to, among other things: (1) assess contaminated sites, (2) determine the threats to human health and the environment posed by each Site, and (3) clean up those Sites in the order of the relative threats posed by each.

Information Request

Under Section 104(e)(2) of CERCLA, 42 U.S.C. § 9604(e)(2), EPA has broad information gathering authority which allows EPA to require persons to furnish information or documents relating to:

- (A) The identification, nature, and quantity of materials which have been or are generated, treated, stored, or disposed of at a vessel or facility or transported to a vessel or facility; and
- (B) The nature or extent of a release or threatened release of hazardous substance or pollutant or contaminant at or from a vessel or facility.

While EPA seeks your cooperation in this investigation, compliance with the Information Request is required by law. Pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604, EPA is authorized to seek penalties if you fail to respond in a timely manner or if you fail to respond adequately to the Information Request. In addition, false, fictitious, or fraudulent statements or representations may subject you to civil or criminal penalties under 18 U.S.C. § 1001.

Some of the information EPA is requesting may be considered by you to be confidential. Please be aware that you may not withhold the information upon that basis. If you would like EPA to treat the information in a confidential manner, you must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting your claim for confidentiality.

If you have information about other person(s) who may assist EPA in its investigation of the Site or may be responsible for the contamination at the Site, that information should be submitted within the timeframe noted above.

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. § 3501 et seq.

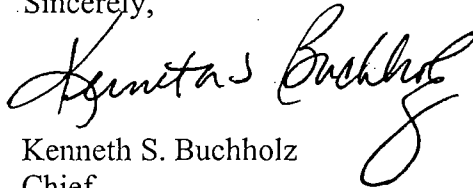

Instructions on how to respond to the questions, stated in Enclosure B, are described in Enclosure A. Enclosure C is a certification that an authorized representative for Four P Equipment Company must sign and return with your response. You should mail your response to:
